

Reputation Monitoring for Small and Medium Businesses

\$25/month

Take Control of your Online Reputation

Your reputation is what you say about yourself and what others say about you. Every day, customers are searching or talking about your business on websites like Facebook, Google, Bing, Yelp, TripAdvisor, blogs and elsewhere, and this chatter has a direct impact on your revenue — it's time you joined the conversation.

dLook Reputation Management gives you control over your online presence by helping you correct online listings, respond to reviews, benchmark yourself against competitors and more.

Verify your listings to improve your search rank

Hear what people are saying all over the web

Push positive reviews out to multiple sources

Stay in-the-know with regular reports

Verify the accuracy of your online business listings across review sites, directory sites and social networks. Inconsistent listing data can lead to poor placement in search results.

Compile mentions from a variety of sources, including news sites, blogs and social networks. Plus, highlight the most positive and negative mentions using automated sentiment analysis.

Generate new positive reviews, and pull in results from major review websites to view overall scores. See which keywords your customers are using to describe your business.

Executive reports break down how your business is faring in online conversations and helps you understand what to do. Alerts are also sent every time new information is found.

Benefits of reputation management with dLook

- A pro active tool to manage your online reviews and social reputation
- Hear what your customers are saying about your business on review sites, blogs and social networks
- Ensure your online listings are consistent across the web and social media
- Monitor your company's activity on social media
- See and act on how your online presence compares to your competition
- Receive regular, actionable reports that help improve your presence
- Gather reviews from customers both online and on-site or store with **Review Generation**; control which reviews go public and which stay private

73%

lose trust in brands due to inaccurate local business listings.
